COMPANY OVERVIEW

Ingrevia is born out of a union of '**Ingredients**' and '**Life**' ('vie' in French). Jubilant Ingrevia is committed to offering high quality and innovative life science ingredients to enrich all forms of life.

Jubilant Ingrevia Limited is a global integrated Life Science products and Innovative Solutions provider serving Pharmaceutical, Nutrition, Agrochemical, Consumer and Industrial customers with customised products and solutions that are innovative, cost-effective and conforming to excellent quality standards.

The Company, with over 42 years of experience, offers over 125 products & innovative solutions using more than 35 key chemistry and technology platforms across its three portfolios of businesses viz Acetyls, Pyridines and Vitamins & Premixes, and its broad portfolio of high quality ingredients find application in a wide range of industries. The Company has 2,100 employees and serves more than 1,500 customers in more than 50 countries across the world. The Company's portfolio also extends to custom research and manufacturing for pharmaceutical and agrochemical customers on an exclusive basis.

Jubilant Ingrevia Limited is a Responsible Care certified company, driven by the motive to add value to millions of lives through innovations and cutting-edge technology. As a leader in key products that the Company manufactures, it takes pride in being a partner of choice for its valued customers.

INNOVATION AND SCALE

Committed to leverage innovation and scale of operations at every step of the value chain

SPECIALITY CHEMICALS

- Pyridine & Picolines
- Fine Chemicals
- Crop Protection Chemicals
- CDMO (Custom Development and Manufacturing Organisation)

BUSINESS SEGMENTS

CHEMICAL INTERMEDIATES

- Acetyls
- Speciality Ethanol

NUTRITION & HEALTH SOLUTIONS

- Nutrition & Health Ingredients
- Animal Nutrition & Health Solutions
- Human Nutrition & Health Solutions

LEADERSHIP POSITIONS

BUSINESS SEGMENTS

Specialty Chemicals

- Globally **#1 in 17** Pyridine Derivatives
- Amongst **top 2 Globally** in (Pyridine + Beta)

Nutrition & Health Solutions

- Globally amongst **top 2 in Vitamin B3** (Niacin & Niacinamide)
- **Leader** in India in **Vitamin B4** (Choline Chloride)

Chemical Intermediates

- **Globally** amongst **top 2** in **Acetic Anhydride**
- **Largest manufacturer** of **bio-based Acetaldehyde**

**Four decades of
transition and
progress**

Sales in over **50 countries** with **33% of sales** in regulated markets such as US, Europe, Japan - leading to sustainable revenue

MANUFACTURING FACILITIES

5 world-class manufacturing facilities with 60 plants across 3 states in India

Gajraula, Uttar Pradesh, India | 36 plants

Integrated facility for Speciality Chemicals & Chemical Intermediates

Bharuch, Gujarat, India | 5 plants

Speciality Chemicals, Nutrition & Health Ingredients, Chemical Intermediates facility located in the Special Economic Zone (SEZ)

Nira, Maharashtra, India | 13 plants

Chemical Intermediates

Savli, Gujarat, India | 5 plants

Animal Nutrition & Health Solutions

Ambernath, Maharashtra, India | 1 plant

Speciality Chemicals

GLOBAL FOOTPRINT

Operations in the following countries

- India
- USA
- Europe
- Japan
- China

World-class

Research Development and Technology centres

at Noida, Gajraula and Bharuch, India

35 key technology platforms

developed & commercialised to global standard

92 highly qualified scientists with 22 PhDs

BUSINESS OVERVIEW

Our business focuses on three core segments – Speciality Chemicals, Nutrition and Health Solutions and Chemical Intermediates. The forward-integrated segment, along with broad portfolio of high quality ingredients that find application in wide range of industries and sectors, aiding us in de-risking our business.

We enjoy a strong position given our strength in vertical integration, chemistry capabilities, low-cost manufacturing, best-in-class processes and global leadership in key products.

SPECIALITY CHEMICALS

Our businesses comprise of intermediates like Pyridine, Picolines, Cyanopyridines, Piperidine and their value added derivatives known as Speciality Ingredients. Jubilant Ingrevia is one of the few global companies in this business space, which is fully integrated both upstream and downstream.

BUSINESS EDGE

Leadership positions in over 17 products and growing

Over 40 years of R&D integration experience

Global reach across over 80 countries

The Company has leveraged on the backward integrated feedstock of Acetaldehyde produced from Ethanol, coupled with global expertise in Pyridine Chemistry to achieve global leadership position in Pyridine business. It has forward integrated these Pyridine and Picolines platforms to develop **over 70 commercial products** for various applications and built global capacities in most of these products with global leadership position in value added products.

The Speciality Chemicals products of Jubilant Ingrevia are used in **Pharmaceutical, Agrochemicals, Food, Industrial, Personal Care, Healthcare and Nutrition** products and various other life science industries. For the last four decades, the Company has mastered the art of making these products and continually work on multiple chemistry platforms to ensure that its global customers' requirements are met.

Our Speciality chemicals business is extending our years of excellence, to a range of value - added Diketene Derivatives, with 4 new product Ethyl Acetoacetate, Methyl Acetoacetate, Mono Methyl Acetoacetate and Tert-butyl Acetoacetate.

Global leadership position in Pyridines & derivatives

Pyridine & Picolines

The Pyridine & Picolines business of Jubilant Ingrevia manufactures **Pyridine, Picolines, Cyanopyridines, Piperidine, Acetaldehyde, Formaldehyde, Alkyl Pyridine Mixtures and Liquid Choline Chloride.** These are used as Speciality Ingredients/building blocks for the production of a range of agrochemicals, pharmaceuticals, dyes, solvents, metal finishes, fine chemicals, etc.

The products are trusted by more than 275 global pharmaceutical, agrochemical and other industrial customers who rely on Jubilant Ingrevia's consistent quality and service. Their trust and support has helped us attain global leadership in Pyridine & its derivatives.

Fine Chemicals

Jubilant Ingrevia offers over **70 commercial products** which are used globally by Pharmaceutical, Healthcare, Electronics and other industries. The Company is a global leader in 17 pyridine based intermediates.

Crop Protection Chemicals

With its value added intermediates Right now, we do not produce actives for Agrochemical Industry. So, please delete the word 'Actives' specially developed for the **Agro Chemical Industry**, the business is a preferred supplier to many global agrochemical customers including innovators. Jubilant Ingrevia's product range includes Halogenated and Fluorinated intermediates and actives with wide application in the agrochemical industry. Building on its manufacturing prowess and powered with complete backward integration, the Company is now introducing several Agro actives, Technical and formulations supported by robust data generated from GLP accredited contract research organisations to address regulatory regiments across the globe.

Antimicrobials (Antimicrobial For Industrial and Personal Care Applications)

Jubilant Ingrevia has a range of safe, eco-friendly and highly efficacious anti-microbial solutions for Industrial applications such as Paints & Coatings, Metal working fluids, Lubricants, Master -batches, Adhesives and Personal Care/Cosmetic products like Hair-care, Skin care, Hygiene, Deodorants & Talcs, Wet-wipes and Soaps etc. It's range of products includes:

Jubithione® Class of Pyrithiones (ZPTO, ZPT-40 & 50 FPS, ZPT Powder, CuPT, NaPT), Jubiquat CPC (Cetyl Pyridinium Chloride), Per-Acetic Acid 15% & 35% solution.

In addition to these traditional well-known antimicrobials, the Company has also developed Novel, Environment- friendly, Synergistic and Low Cost Innovative technologies like Jubithione® ZPZ (anti-dandruff), Jubithione® ZPC+ (anti-viral & hygienic paints), Jubithione® ZPB (in-can & interior dry-film preservative), Jubithione® & Jubithione® CZTO NPB (in-can preservative), Jubithione® DOZ (dry-film preservative for exterior coatings), Jubiquat® CLC (highly effective anti-bacterial & anti-fungal for clear products), Phenoxy Ethanol based Boosted Preservation Solutions Jubigaard® PEHG & PCG and Complete Oral Care Solution Jubiquat® CPL with anti-bacterial and tooth-whitening benefits.

CDMO (Custom Development & Manufacturing Organisation for Pharma & Agrochemical)

Jubilant Ingrevia with its strong, Synthetic, Organic Chemistry and Manufacturing Capabilities has established itself as an important partner resource for Custom Development and Manufacturing (CDMO) services. We strive to offer solutions across the entire Pharmaceutical Value Chain from grams to multimetric tons of custom small molecules as desired by customers.

Around 30 years of experience in Pyridine chemistry

NUTRITION & HEALTH SOLUTIONS (N&HS)

This business caters to Human & Animal Nutrition, Pharmaceutical & Personal Care segment/applications. N&HS has three verticals – Nutrition & Health Ingredients, Human Nutrition & Health Solutions & Animal Nutrition & Health Solutions. Some of our key offerings are Vitamin B3 (Niacin & Niacinamide) & Choline Chloride in which we are amongst the Top two manufacturers globally & the leading manufacturers in India respectively.

2nd largest manufacturer of Vitamin B3 (Niacinamide and Niacin) worldwide

Vitamin B3 - Nutritional & Health Ingredients (N&HI)

Our Vitamin B3 manufacturing facility is accredited with world-class certifications like WHO-GMP, HALAL, Kosher, FSSC -22000, ISO, US FFR, RC 14001:2015 etc. We provide Vitamin B3 for various applications like animal nutrition, human nutrition, personal care and other value-added applications.

Our manufacturing facility is totally backward integrated & we have recently received NABL accreditation for our labs which would ensure the reliability & repeatability of our product test results.

We do offer some nutritional ingredients like Riboflavin Phosphate Sodium (RPS), Inositol Hexa-Nicotinate & chelated minerals like Chromium Picolinate & Zinc Picolinate.

Currently, we are supplying our products to more than 80 countries and have a global sales & distribution networks worldwide.

Vitamin B4 (Choline Chloride)

Another key product in this segment is Vitamin B4 (Choline Chloride) for which the Company has the largest market share in India, catering to different applications like feed, food, pharmaceuticals, dye manufacturing and shale stabilisation. Vitamin B4 is manufactured in world-class glass line reactors with complete automated PLC systems with commitment to maintain high quality standards and compliance to regulations and good practice.

Animal Nutrition & Health Solutions

Through our Animal Nutrition & Health Solutions business we offer high quality Specialty Feed Supplements and Additives in the category of Anti-stressors, Value added Choline, Vitamin and Mineral Premixes (Glycinated/ Metho-chelated), Calcium & Vitamin D3 granules, Herbal Choline, Herbal Methionine, Fly controller, Betaine, Acidifier, Anti-diarrheal, Toxin Binders, Rumen protected Dairy products, Growth Promoters, Egg quality enhancer, Liver Nourishment Products and Emulsifiers to integrators, feed millers and commercial farmers across the globe. We cater to various segments of industry like poultry, dairy, aqua, swine and pet food.

Human Nutrition & Health Solutions

Jubilant Ingrevia through its Human Nutrition & Health Solutions business offers nutritional and functional ingredient solutions, and tailored premixes for use in food, nutrition and fortification markets. The Company is the right partner of choice for developing its client's business in today's ever-conscious clean label market by providing natural, minimally processed and familiar ingredients. Business is expanding into choline value chain for human application.

Largest manufacturer of Choline Chloride (Vitamin B4) in India

CHEMICAL INTERMEDIATES

Jubilant Ingrevia manufactures a range of Chemical Intermediates which includes Acetyl Products and Specialty Ethanol and holds leadership positions in most of them.

BUSINESS EDGE

- The key product portfolio comprises of Acetic Anhydride, Ethyl Acetate, Propionic Anhydride, Specialty Ethanol, Glacial Acetic Acid - Food Grade (99.85%) and Acetaldehyde.
- The Company has global scale capacity to produce Acetyls and Alcohol Derivatives from agro-based feedstock including molasses and alcohol.
- Established sales and distribution network to cater to requirements across the globe.
- The Company also supplies Specialty-grade Alcohol to agro-chemical and pharmaceutical customers across India.

Life Science Ingredients

The business is a global leader in the merchant market sales of Acetic Anhydride and among the largest domestic suppliers of Ethyl Acetate. We are also among the domestic leaders in Propionic Anhydride. Life Science Ingredients find applications in diverse industries such as Pharmaceuticals, Crop Protection, Food & Beverages, Textiles, Packaging, Adhesives, Aromatics, etc.

Specialty Ethanol

The Specialty Ethanol business manufactures Anhydrous Alcohol, CO₂ and ETO mixtures. Our state-of-the-art manufacturing facilities produce alcohol through the molasses route and are located in the sugarcane-rich regions of India. Our Specialty-grade alcohol finds use in reputed Pharma, Agro and Personal Care industries spread across the country. We also supply Ethanol towards the Ethanol Blending Programme of the Govt. of India.

MANUFACTURING OPERATIONS

At Jubilant Ingrevia, our manufacturing goal is enshrined in our zero-tolerance to non-compliance ethos. Engrained in our operations for more than four decades, this philosophy has uplifted our manufacturing facilities to imbibe cutting-edge technology and institutionalize world-class processes. This in turn allows us to deliver world-class quality products to our customers on time.

We operate 5 global-scale manufacturing facilities in India, which cater to our 1,500-plus customers in India and across the globe. We operate 12 multi-product plants, which give us the flexibility to manufacture new products in a short span of time. Most of our manufacturing facilities operated through DCS; Data analytics and digital platforms are our focus areas for real-time monitoring, controlling and decision-making.

Gajraula, our flagship unit, stands out for its complementing infrastructure, which allows seamless 24x7 operations. It includes:

- A Captive Power Generation facility at Gajraula with spare capacity and self-sustained steam generating unit.
- A Dedicated Railway siding for bulk transport.

We have steam, Chilled Water & Brine unit with spare capacity at all our facilities.

We realise that our operations could pose an impact on the surrounding environment. With this realisation,

we have invested in effluent/waste treatment/management facilities at all our sites like ETP, RO, Water Polishing Plants, Multi Effect Evaporators, Bio-composting, Thermal Oxidisers for gaseous waste and Incineration facility for liquid with online vent gas monitoring.

We possess advanced capabilities in niche technology built through research in multi-complex chemistries and focus on process intensification. We have a full-fledged pilot plant that can undertake all types of reactions at different pressures, temperatures & MOCs. All products, developed in our R&D undergo a rigorous validation process to ensure the technology is scalable, robust & end-to-end solution for commercialisation.

Our real-time monitoring & review mechanism through a Conformity Tool allows us to track existing compliances along with new regulatory requirements and course correct proactively when required. This ensures that our operations are always aligned with global regulatory standards.

The Company's continuous emphasis on compliance to regulations, GMP (Good Manufacturing Practices) and continuous improvement are key drivers for ensuring consistent quality of products. Jubilant Ingrevia ensures compliance by continuous assessment and review of quality systems, and compliance with industry guidelines and regulatory standards.

Jubilant Ingrevia has the following major certifications:

- Responsible Care Logo Award by the Indian Chemical Council
- Responsible Care® American Chemistry Council Technical Specification RC 14001:2015
- ISO 9001:2015 (Quality Management System)
- ISO 14001:2015 Environmental Management System
- ISO 45001:2018 (Occupational Health & Safety Management System)
- ISO 50001:2018 (Energy Management System)
- FSSC 22000 Version 5 (Food Safety System Certification)
- FAMI-QS Version 6 (Feed Safety Management System)
- Halal-India, Halal Indonesia Certification
- Kosher Certification
- FSSAI (Food Safety and Standards Authority of India)
- WHO GMP/GMP (Good Manufacturing Practices)
- ISO/IEC 17025:2017 (NABL Accreditation)

Foremost Commitment Towards Health, Quality, Safety and Environmental Protection

Multi-location Advantage, Manufacturing for Global Markets with Global Scale Capacities

NABL Accredited QC Laboratories with Standard ISO/IEC 17025:2017 Certification

Fully Integrated Renewable Biomass Based Chemical Products

Edge to Operate in a Wide Arrays of Temperature/High Pressure Range

Expertise in Key Technology Platforms for Sustainable and Green Manufacturing

RESEARCH DEVELOPMENT & TECHNOLOGY

At Jubilant Ingrevia, a team of well qualified and experienced professionals at R&D centers spread across multiple locations are specialized across the value chain of chemical research, chemistry/ process development of advance intermediates, fine chemicals and contract research.

Bharuch as well

Gajraula, Uttar Pradesh, India
Noida, Uttar Pradesh, India

The Company's R&D centers conform to international standards and are well equipped with world-class infrastructure managed by best-in-class manpower. Each R&D center has dedicated unit integrated with relevant business.

Its R&D performance hinges on the coherence and cohesiveness among its centers where rapid exchange of knowledge takes place to keep pace with competition and to develop disruptive technologies for future. The R&D team focuses on process intensification, absorption of technologies and establishing technologies at commercial scale.

A dedicated team of scientists / process engineers focus on product / process development in the area of pyridine and its derivatives and related heterocyclic chemistry, chiral chemistry, Sugar Chemistry, Ethylene oxide gas based chemistry, Ketene & Diketene chemistry, development of advance heterogeneous catalysts, extension of chemistry skills to non-heterocyclic compounds, value creation in existing key products through process improvements / process intensification, technology development of vitamins & especially B-3 and development of Animal / Human health care products. New products continue to get developed by experienced and talented R&D teams which work to deliver in line with the marketing strategy by developing new cost effective processes / products. Our technologies incorporate specialized proprietary knowhow and developed intellectual Research property.

Team of 92 Scientists with 22 PhDs

Knowledge driven operations; Providing innovative products and economically efficient solutions

Proven expertise in complex chemical / engineering technologies viz. heterogeneous technologies, chiral chemistry, vapour phase technologies and polystate science

Advanced in-house capabilities in modern analytical instruments leads to expedited customer support

Continued efforts to minimize time to commercialization of newer technologies/ products

BUSINESS EXCELLENCE

Business Excellence continuously strives to build a culture of Excellence in the Company by seeking to enhance the organisation's people, processes and system capabilities. Deployment of latest transformational methodologies drives the competitive advantage, backed by strong execution mechanism and capabilities.

The continual effort of our Business Excellence function is to understand the processes and systems, model them by transfer functions and define crucial measurements which result in a superior coordination and integration of processes, learning and reconfiguration and transfiguration which become sources of competitive advantage and can be effectively used to leverage Company's competitive strategy.

Highlights:

- Initiatives cover all facets of the business including Manufacturing, Sales and Marketing, New Product Introduction (R&D), Supply Chain, Corporate HR, Projects and other support functions which help in creating a more efficient value chain through Lean Six Sigma, Design for Six Sigma, Quality by Design, World Class Manufacturing, Total Productive Maintenance (TPM), Project Management, Operation Research, Digital transformation and Business Intelligence.
- Dynamic and Steady State Process Simulation Modeling for enhancing efficiencies of chemical processes using tools like Chemcad, ASPEN, DYNOCHEM and other statistical tools i.e. Minitab, KNIM, leading to cost savings.
- Capacity debottlenecking and OPE Improvement across all sites for all major products through application of Lean Six Sigma tools thereby improving the ROCE.
- Energy savings and conservation initiatives across all sites and focusing on increasing renewable energy usage and reduction of carbon footprints.
- EBIDTA improvement initiatives across all businesses by following best in class Lean manufacturing, Lean business and Lean Supply Chain practices.
- Manpower productivity enhancement through Mechanization and Automation and other Process Intensification initiatives.
- Digitalization initiatives for improved visualisation, advance analytics and data based decision making, in all business functions.
- Competence development across organisation by certification of Champion, Black belts, Green Belts and Yellow belts for effective Lean six sigma deployment.
- Culture building for continual deployment of Pokayoke systems and processes, TPM philosophies and 5-S and moving towards a Visual factory.

SUPPLY CHAIN

The goal of Supply Chain Management (SCM) at Jubilant Ingrevia is to provide a substantial and sustainable value contribution to its customers for the success of our businesses.

Customer delight through effective and efficient logistics and supply chain management

Low cost, multi-location & vertically integrated sustainable supplier base

Jubilant Ingrevia strives to play an integral role in all geographies where it operates. The guiding principles for our supply chain have been set under our Green Supply Chain Policy. To fulfil our green supply chain commitments, the evaluation criteria cover clauses on compliance to EHS, human rights and social requirements relevant laws of the land.

Highlights:

- **Jubilant Ingrevia emphasises and invests in Life Cycle Management (LCM)** of all its products consistently to be a reliable and a sustainable supplier meeting global quality standards.
- **Many green supply chain initiatives** are taken like disposing of solid waste and spent solvents to cement industry and paper waste to paper industry thereby reducing burden on land filling. We have also initiated use of Bio waste as fuel for boiler, thus reducing carbon footprint. This initiative is taken across all five plants and two of the plants are using 100% bio waste as fuel. We have also initiated action to gather carbon foot prints of our major suppliers and as next stage, we are planning to give target of carbon foot print reduction to them as well.
- We continue to conduct partners in progress meet to collectively **innovate & optimise a sustainable value chain**.
- **Paperless Sourcing:** Jubilant Ingrevia uses an e-procurement tool that enables paperless buying. It ensures greater efficiency and transparency in procurement process and information flow by use of tools like reverse auction.
- **Supplier Audits are conducted annually** to cover critical vendors at least once in three years. It includes performance assessment against parameters such as environment, labour practice, human rights and social impact. We also do hand-holding of suppliers to achieve sustainable results.
- **Local Sourcing:** The Company sources its material, machinery, spares stores etc. from across the globe without compromising on quality and value. Preference is given to local suppliers if they satisfy the requisite specifications.
- **Training Programs:** Road safety during transportation of its products and raw materials is of prime concern to us. In order to improve transporter safety, 'Behavioural Safety Training with focus on defensive driving' is imparted to transport service providers. We have also conducted Journey risk assessment (JRI) between JNPT-NIRA to find optimum route and identify any risk of accidents. We have also started Driver Management centre (DMC) at our Nira facility which shall be extended to other sites in future.
- All domestic tanker movement are tracked through GPS for safety & timely delivery for couple of years. This year onwards we have started tracking our exports shipments as well, giving better visibility to our customers about their shipments.

SUSTAINABILITY

Sustainability is an integral part of our culture and purposeful action. We believe in delivering on our promise of Caring, Sharing, and Growing. The Company has been reporting its sustainability performance since 2003 following GRI guidelines, and our latest sustainability report published for FY 2022 has been prepared in accordance with the GRI Standards: Comprehensive option.

Jubilant Ingrevia is signatory to United Nations Global Compact (UNGC) principles. It is also a GRI Gold Community member. The Company has created meaningful goals and targets for 2024, inspired from Sustainable Development Goals (SDGs), Science based targets initiatives (SBTi), India's Intended Nationally Determined Contributors (INDC) and NITI Aayog. During FY 2022 our commitment to sustainability can be demonstrated by our achievement in our Environmental, Social, and Governance (ESG) ratings. In the S&P Global ESG Indices CSA 2021- CHM Chemicals, we scored 81% percentile. In CDP (formerly the Carbon Disclosure Project) we are on awareness band in climate change and water securities disclosure. We also climbed from 23rd to 6th position on Responsible Business Ranking by the joint ET-Futurescape 8th Sustainability Index Report.

Climate Change

- Jubilant Ingrevia is aware about business implications and responsibilities arising out of Climate Change across the globe. In response, the Company has adopted Climate Change Mitigation Policy, which aims to reduce its climate change impact through reduced carbon footprint.
- The Company carried out a 2°C and 1.5°C global warming Scenario Analysis to understand the impact of climate change on its business and each site.
- The Company calculated its Scope 1, 2 and 3 emissions and participates in Carbon Disclosure Project (CDP) to publicly demonstrate its Greenhouse Gas emission performance and commitments.
- Climate change is creating opportunities for companies like Jubilant Ingrevia Limited, who are willing to innovate. One area on which the Company is seriously focusing on is renewable energy like solar, wind and so on. The Company is also focusing on and allocating funds for energy efficiency, resource efficiency, green chemistry, low-carbon technologies, circular economy and use of biomass as a fuel for addressing the climate change.
- The Company conducted life-cycle based carbon footprint studies through a reputed external agency during FY 2012. The study was conducted on 15 key products of the Company using the 'cradle-to-gate' approach. Last year the Company engaged third party for PCF (Product Carbon Footprint) assurance of 26 products. PCF study of 25 products are almost ready and awaiting for assurance to start.

Environment, Health and Safety (EHS)

- The Company's approach towards best-in-class EHS standards is articulated in the EHS Policy.
- Dedicated EHS teams at manufacturing facilities & corporate

office effectively manage the EHS performance of the Company.

- Safety culture in terms of safe behavior is being aggressively promoted and propagated at workplace.
- Majority of the Company's manufacturing facilities (4 out of 5) are ISO 14001 and ISO 45001 certified. The Company is signatory to Responsible Care and its largest plant in Gajraula, Bharuch & the corporate office are RC 14001 certified. All Jubilant Ingrevia plants in India has received Responsible Care logo from Indian Chemical Council (ICC).

Customer Health and Safety

- At Jubilant Ingrevia Limited, a two-pronged approach is established for product health and safety, where in, R&D and Regulatory Affairs teams constantly work to upgrade product safety information. QA & QC teams ensure that product quality, packaging and labelling of the products are strictly in accordance with the customer specifications, applicable international guidelines and regulatory requirements as applicable.
- Compliance to national and international product safety related guidelines and standards like REACH, FAMI-QS, FSSC 22000:2012. Relevant facilities have also taken FSSAI (Food Safety and Standards Authority of India) license from respective authorities.
- For classification, labelling & packaging of chemicals the company follow country specific standards like GHS (Global Harmonised System), CLP (Classification, labelling & Packaging) etc. The Company is also contributing its safety data sheets (SDS) on Global Product Strategy (GPS) portal of International Council of Chemical Associations (ICCA).
- To bring in customers confidence on Jubilant Ingrevia's EHS & Sustainability performance, the Company allows EcoVadis, a third party deputed by global Chemical business conglomerates, to assess its sustainability performance every year. Jubilant Ingrevia Limited has received a heartening score of 93 percentile and is among the top 5% of companies in the prestigious EcoVadis assessment for FY 2022. Our Company has also received a GOLD rating basis the above score. The score reflects the quality of Jubilant Ingrevia Limited's sustainability management system. EcoVadis is a trusted provider of business sustainability ratings, intelligence and collaborative performance improvement tools for global supply chains.

Corporate Social Responsibility (CSR)

Jubilant Ingrevia's CSR initiatives thrust on creating value in the lives of the communities around the area of operations of the Company. Jubilant CSR initiatives are focused in the realm of Education, Health, Livelihood and Social Entrepreneurship.

Key CSR activities include skill development programs, computer literacy projects via mobile bus, enhancing quality of education, mobile based biometric system for health monitoring of select children, women empowerment, partnership with development organisations etc.

Jubilant Ingrevia is aligning its sustainability efforts along with UN SDGs (Sustainable Development Goals) and refer these SDGs while planning/ adopting any new existing community development projects.

RIG- 26 (Responsible Inclusive Growth - 2026)

One of the strategic action plans, developed by Jubilant Ingrevia Limited, towards driving its sustainability journey ahead is – the 'Responsible and Inclusive Growth' (RIG-26) program. The 'Responsible Inclusive Growth' (RIG -26) program was established to identify certain focus areas with their targets to be achieved by FY 2026. These internal initiatives under the program aim to enhance socio-economic value for our stakeholders while minimising the environmental footprint of the Company's operations. These focus areas under RIG-26 are aligned with the Company's business and in turn, will contribute to the SDG's commitment of the organisation.

Jubilant Ingrevia Limited is a global integrated Life Science products and Innovative Solutions provider serving Pharmaceutical, Nutrition, Agrochemical, Consumer and Industrial customers with customised products and solutions that are innovative, cost-effective and conforming to excellent quality standards.

The Company offers a broad portfolio of high-quality ingredients that find application in a wide range of industries. The Company has 2,100 employees and serves more than 1,500 customers in more than 50 countries across the world. The Company's portfolio also extends to custom research and manufacturing for pharmaceutical and agrochemical customers on an exclusive basis.
