Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the Ministry vide proposal number IA/GJ/NCP/759/2007 dated 16 Nov 2021. The particulars of the environmental clearance granted to the project are as below.

- | | |
|--|---|
| 1. EC Identification No. | EC22A031GJ117822 |
| 2. File No. | 10/24/2021-IA.III |
| 3. Project Type | Expansion |
| 4. Category | A |
| 5. Project/Activity including Schedule No. | 7(c) Industrial estates/ parks/ complexes/ areas, export processing Zones |
| 6. Name of Project | EC for the setting up of SEZ for chemicals in vilayat GIDC in Taluka vegra, district bharuch alongwith captive power plant common ETP, TSDF |
| 7. Name of Company/Organization | Jubilant Infrastructure Limited |
| 8. Location of Project | Gujarat |
| 9. TOR Date | N/A |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 14/02/2022

(e-signed)
Amardeep Raju
Scientist E
IA - (INFRA-1 sector)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

2. The existing project of Jubilant Infrastructure Limited (JIL) is an operational notified SEZ located at Plot No.5, Vilayat GIDC Estate, Taluka-Vagra, District-Bharuch, Gujarat, India in an area of 107.16501Ha. (264.81Acre).

3. The proposal is for expansion having an additional contiguous piece of land area of 45.86 acre (18.5590 Ha.) procured from GIDC and expansion of the existing operating / under construction units within the SEZ. Thus, the total land area after expansion will be 310.67Acre (125.724 Ha.).

4. Environmental Clearance was obtained earlier under category 7(c) from MoEF&CC, New Delhi vide letter no. 21-1087/2007-IA.III dated 03.07.2008 after conducting a public hearing on 20/09/2007, for the area of 250 acres (101.171 Ha) for setting up SEZ, with 15-20 units for manufacturing of Synthetic Organic Chemicals covered under item Category-(5f) of the Schedule 1 of the EIA Notification 2006.

5. The EC was amended for the expansion in Land area from 250 Acres to 265 Acres (Addition of area 15 acres) vide letter No.21-1087/2007-IA.III dated 03.11.2011, for the same industry sectors as already granted. Further, EC for 30 MW Captive Thermal Power Plant was obtained vide letter no - EIAA/GUJ/EC/1(d)/173/2016 dated 24th February 2016.

6. Amendment to Environmental Clearance of the JIL-SEZ for change in product mix including 5(b) and existing 5(f) was obtained vide letter.no 21-1087/2007-IA.III dated 31.03.2017 along with an independent (separate) fresh EC, for Unit-III within the SEZ was also obtained for manufacturing “Technical grade pesticide & pesticide specific intermediates” covered under item 5(b) of EIA Notification 2006 with a capacity of 32,350 TPA from the MoEFCC, New Delhi, vide letter no. F. No. J-1101/311/2014-IA. II (I) dated 8.01.2018 after conducting a public hearing on 18th August 2017.

7. An EC application with proposal number IA/GJ/NCP/759/2007 was filed on 16.11.2021 with File No. 10/24/2021-IA.III for expansion in area of the JIL SEZ from existing 264.81 acre with additional 45.86 acre making total of 310.67 acre along with increase in capacities of the predefined expansion of current units in operation and under construction with additional R&D Centre as further detailed in the said application filed before the MoEF&CC.

8. The proposed expansion of JIL-SEZ, a part of the Vilayat GIDC, also lies within the Dahej-PCPIR in an area of 44445.18 Ha, for which Environment clearance was granted vide MoEFCC letter No. 21-49/2010-IA-III Dt. 14/09/2017 for which a Public hearing was conducted by GIDC in 2014. As per the existing regulatory provisions, Public Hearing is exempted for “all projects or activities located within industrial estates or parks (item 7(c) of the Schedule) approved by the concerned authorities, and which are not disallowed in such approvals”. Therefore, based on the application made by the proponent, amended TOR with exemption of public hearing was granted vide letter No. 10/24/2021- IA.III dated 25.10.2021. However, the proponent has to comply with the Ministry’s OM no. J-11011/321/2016-IA.II(I), dated 27.04.2018 which made it mandatory for certain type of industries to conduct public hearing irrespective of their location within Industrial Area or outside the industrial area.

9. The proposed project falls under Schedule 7(c), Category “A” of EIA Notification

2006. The existing project cost is Rs. 200 crores and the proposed cost is Rs. 300 crores comprising a total amount of Rs. 500 crores.

10. Terms of Reference for proposed expansion project has been accorded vide letter no. 10/24/2021-IA.III dated 17.08.2021.

11. Area(ha)/Length(km) of the proposed project is as following:

Items	Existing	Proposed	Total
Land Area, Acres (Ha.)	264.81 (107.1650)	45.86 (18.5590)	310.67 (125.724)

12. Land use /Land breakup of the proposed project site is as following:

S. No	Description	Land Area			Remarks, if any
		Existing	Proposed	Total	
		Acres	Acres	Acres	
1	Process Zone	201.293	-26.0083	175.2847	-
2	Non-Process Zone	22.902	0.7083	23.6103	-
3	Infrastructure (road, amenities etc)	6.610	1.746	8.356	-
4	Greenbelt area	34.005	69.414	103.419	Thus, entire green belt area is: 34.005+69.414=103.419 Acre. Out of 69.414 Acres proposed, area of land leased from Vilayat GIDC for green belt would substitute equivalent area of land within the property. An area of about 22.19 acres of green belt in GIDC is allotted.
	Total	264.81	45.86	310.67	-

13. List to industries to be housed with the proposed project site: The project site is proposed to include the industrial activities for Multi-Sectoral Chemical manufacturing facility.

S. No	Proposed Industrial Activity
1	Thermal Power Plant1(d)
2	Pesticides industry and pesticide specific intermediates 5(b)
3	Synthetic organic chemicals industry 5(f)
4	Common hazardous waste treatment storage and disposal facilities (TSDFs) 7(d)
5	Common Effluent Treatment Plants (CETPs) 7(h)

14. Water requirements: The total water demand for the project is 15,000 KLD during operation phase. Surface water supply from Narmada is provided by GIDC as per agreement. During construction phase, the water requirement would be about 100 KLD and shall be supplied from the existing GIDC. The proponent will obtain necessary approvals from the CGWA for ground water extraction, if ground water use is necessary.

15. Diversion of forest land: Proposed project site does not involve forest land. There is no National parks, Sanctuaries, ESZ, ESA and Tiger reserves etc around 10 Km from the proposed project site. There is no Eco Sensitive Zone passing through the project site. Proposed project site is not in CRZ area.

16. Waste Management: **Municipal Solid Waste:** Existing Municipal solid waste to the tune of 122 kg/day is being generated from existing operations and in proposed phase additional 1126 Kg/ Day will be generated which will be composted within the site through Bio-Composting machines.

17. CETP & STP details:

S. No.	Process stream	Total capacity as in earlier EC	Present status	Proposed expansion	Total After expansion EC
1	CETP	2500 KLD	1000 KLD	4000 KLD	5000 KLD
2	STP	200 KLD	100 KLD	300 KLD	400 KLD

18. Tree cutting: No tree cutting is envisaged in proposed expansion project.

19. Green Belt: The proponent has proposed to strengthen the green belt with minimum 24 m width along the boundary of the project. Existing greenbelt is 34.005 Acre (13.76 Ha) will be augmented with an additional 69.414 Acre (28.09 Ha.), within the Project boundary and land outside the project boundary within the Vilayat GIDC, to achieve total green belt area of equivalent to 33% of the project area. An area of about 22.19 acres of green belt in GIDC is allotted to JIL-SEZ for plantation.

20. Energy conservation: Energy conservation measures for proposed expansion like LED Lights is installed for energy conservation. Approximate 0.5MW is being conserved out of total demand 49MW.

21. Marine Disposal: The Waste water generated from industrial activity will be treated in Common effluent treatment plant including ETP, RO, MEE, Dryer and permission for 5MLD discharge to deep sea through GIDC Pipeline.

22. Land acquisition and R&R issues: The land ownership of the entire area is with Jubilant Infrastructure Limited. The site is a notified SEZ, also falls within the notified GIDC industrial estate of Vilayat and is part of the notified Dahej PCPIR project area.

23. Employment potential:

S. No.	Unit	Company Employee	Contractual Employee	Total	Remark
1.	Existing (JIL-SEZ)	117	200	317	Local People will be given preference as per skilled set of nearby areas.
	Member Units of JIL SEZ	323	342	665	
2.	Proposed				
a.	Construction Phase	--	150	150	
b.	Operational Phase (JIL-SEZ)	283	200	483	
	Member Units of JIL SEZ	4000	4535	8535	
Note: The SEZ would have a potential Employment projected employment 10,000 workers at full capacity after expansion.					

24. Benefits of the project:

Type of Project Benefits	Details of Project Benefit
Social benefits	Project shall create enormous opportunities for direct and indirect employment. In expansion phase about 483 people will be directly employed. The total employment including the member's units of the SEZ after expansion has potential to be additional 8535 to take it to about 10,000 at full scale.
Community and infrastructure development programme	Proposed project, estimated investment is Rs. 300 Crores by JIL-SEZ would set aside 2.5% of the capex investment for CSR interventions, amounting to Rs. 7.5 Crore during the tenure of the project. The identified activities under CER program are as follows: <ul style="list-style-type: none"> • Eradicating hunger, poverty and malnutrition, promoting preventive health care and sanitation and making available safe drinking water. • Promoting education, including special education and employment enhancing vocation skills, especially among children, women, elderly, and the differently - abled and livelihood enhancement projects. • Rural development projects. • Ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agro-forestry, conservation of natural resources and maintaining quality of soil, air and water.
Improved Aesthetic Surrounding Environment	The proposed additional green belt will enhance the aesthetic beauty of the surrounding environment.
Others	<ul style="list-style-type: none"> • Promoting education, including special education and employment, women, elderly, and the differently-able and livelihood. • Ensuring environmental sustainability, ecological balance, conservation of water bodies nearby the areas.

25. Details of court cases: No Court Case is pending against the proposed project

26. The EAC based on the information submitted and clarifications provided by the project proponent and detailed discussions held on all the issues in its 283rd meeting during 9th - 10th December, 2021, recommended the project for grant of environmental clearance with stipulated

specific conditions along with other Standard EC Conditions.

27. The Ministry of Environment, Forest and Climate Change has considered the proposal based on the recommendations of the Expert Appraisal Committee (Infrastructure, CRZ and other miscellaneous projects) and hereby decided to grant Environmental Clearance for the “Expansion of an operating notified SEZ, with an additional land of 45.86 acre, for Multi-Sectoral Chemical manufacturing facilities located at Plot 5, Vilayat GIDC Estate, Taluka Vagra, Dist Bharuch, Gujarat” by M/s Jubilant Infrastructure Limited under the EIA Notification, 2006 as amended and CRZ Notification 2011, subject to strict compliance of the following specific conditions, in addition to all standard conditions applicable for such projects.

A. SPECIFIC CONDITIONS

- i. All the mitigation measures to reduce pollution as mentioned in EIA/EMP report shall be implemented in toto.
- ii. The existing water bodies in the project area shall be conserved and used for effective water management. No ground water shall be used in any case.
- iii. Provision shall be made to recharge the ground water and construct rainwater harvesting structures for augmentation of ground water levels. Rain water harvesting for roof run-off and surface run-off, as plan submitted shall be implemented.
- iv. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The bore well for rainwater recharging shall be kept at least 4 mts above the highest ground water table.
- v. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured/recorded to ensure the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six Monthly Monitoring report.
- vi. To achieve the Zero Liquid Discharge, waste water generated from various industrial operations shall be properly collected, treated to the prescribed standards and then recycled or reused for the identified uses.
- vii. The member units shall provide storage tanks and provide primary treatment as per the CETP norms before sending into the CETP for further treatment. Flow meters with recording facilities shall be provided to monitor the effluent quality and quantity sent from member industries to CETP and from CETP to the final disposal/re-use on a continuous basis.
- viii. Ambient noise levels shall be regularly monitored and conform to the prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during development/ construction phase.
- ix. Continuous monitoring system be installed by all the member industries and adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/SPCB.

- x. Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016.
- xi. Grading within the project site shall be planned such that there shall be negligible impacts on the existing natural drainage system/pattern. An adequate drainage system shall be provided at the site with separate collection streams to segregate the storm run-off from roads, open areas, material storage areas, vehicle wash water and other wastewater streams. Suitable measures should be taken to prevent the washing away of construction materials into the drainage system.
- xii. Green belt should be developed all around the settlements and water bodies. Minimum 33% of total project area shall be maintained as green belt.
- xiii. As per the Ministry's Office Memorandum F. No. 22-65/2017-IA.III dated 30th September, 2020, the project proponent shall abide by all the commitments made by them to address the concerns raised during the all the public consultations held earlier for JIL-SEZ. The project proponent shall initiate the activities proposed by them, based on the commitment made in the public hearing, and incorporate in the Environmental Management Plan and submit to the Ministry. All other activities including pollution control, environmental protection and conservation, R&R, wildlife and forest conservation/protection measures including the NPV, Compensatory Aforestation etc, either proposed by the project proponent based on the social impact assessment and R&R action plan carried out during the preparation of EIA report or prescribed by EAC, shall also be implemented and become part of EMP.

STANDARD CONDITIONS:

I. Statutory compliance:

- (i) The project proponent shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of surface water required for the project.
- (ii) All excavation related dewatering shall be as duly authorized by the CGWA. A NOC from the CGWA shall be obtained for all dewatering and ground water abstraction
- (iii) A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
- (iv) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Coast Guard, Civil Aviation Department shall be obtained, as applicable by project proponents from the respective competent authorities.

II. Air quality monitoring and preservation:

- (i) The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM_{2.5} in reference to PM emission, and SO₂ and NO_x in reference to SO₂ and NO_x emissions) within and outside the project area at least at four locations (one within and

three outside the plant area at an angle of 120° each), covering upwind and downwind directions.

- (ii) Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed emission standards.
- (iii) Dust collectors shall be deployed in all areas where surface cleaning and painting operations are to be carried out, supplemented by stacks for effective dispersion.
- (iv) Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.
- (v) A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

III. Water quality monitoring and preservation:

- (i) Total fresh water use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water.
- (ii) Sewage Treatment Plant shall be provided to treat the wastewater generated from the project. Treated water shall be reused for horticulture, flushing, backwash, HVAC purposes and dust suppression.
- (iii) A certificate from the competent authority for discharging treated effluent/ untreated effluents into the Public sewer/ disposal/drainage systems along with the final disposal point should be obtained.
- (iv) No diversion of the natural course of the river shall be made without prior permission from the Ministry of Water resources.

IV. Noise monitoring and prevention:

- (i) Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- (ii) Noise from vehicles, power machinery and equipment on-site should not exceed the prescribed limit. Equipment should be regularly serviced. Attention should also be given to muffler maintenance and enclosure of noisy equipments.

- (iii) Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.
- (iv) The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.

V. Energy Conservation measures:

- (i) Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly;
- (ii) Provide LED lights in their offices and project areas.

VI. Waste management:

- (i) Necessary arrangements for the treatment of the effluents and solid wastes must be made and it must be ensured that they conform to the standards laid down by the competent authorities including the Central or State Pollution Control Board and under the Environment (Protection) Act, 1986.
- (ii) The solid wastes shall be managed and disposed as per the norms of the Solid Waste Management Rules, 2016.
- (iii) Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.
- (iv) A certificate from the competent authority handling municipal solid wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project.
- (v) Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VII. Green Belt:

- (i) An overall green area of at-least 33% of the Industrial Area should be developed with native species. The project proponent of the Industrial Area shall comply with the additional commitment made by them in the EIA report regarding the development of green belt.
- (ii) The Industrial Areas are directed to accordingly allocate the area to be developed as green cover to respective individual industrial units so as to achieve the above mentioned condition.
- (iii) The individual industrial unit, at the time of obtaining EC, shall bring a letter from the Industrial Area for the area allocated to them to be developed as green cover as a part of obligation from the Industrial Area.
- (iv) Wherever possible, plantations around the periphery of the Industrial Area, in the downwind direction and along the road sides shall be provided for containment of pollution and for formation of a screen between the industrial area and the outer civil area. The choice of plants should include shrubs of height 1 to 1.5 m and tree of 3 to 5 m height. The intermixing of trees and shrubs should be such that the foliage area density in vertical is almost uniform.
- (v) The parameters like selection of plant species, procedure for plantation, density of tree plantation etc shall be as per the CPCB guidelines.

VIII. Public hearing and human health issues:

- (i) Workers shall be strictly enforced to wear personal protective equipments like dust mask, ear muffs or ear plugs, whenever and wherever necessary/ required. Special visco-elastic gloves will be used by labour exposed to hazards from vibration.
- (ii) Safety training shall be given to all workers specific to their work area and every worker and employee will be engaged in fire hazard awareness training and mock drills which will be conducted regularly. All standard safety and occupational hazard measures shall be implemented and monitored by the concerned officials to prevent the occurrence of untoward incidents/ accidents.
- (iii) Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- (iv) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- (v) Occupational health surveillance of the workers shall be done on a regular basis.

X. Environment Responsibility:

- (i) The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest /wildlife norms/ conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- (ii) A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
- (iii) Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.
- (iv) Self environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.

XI. Miscellaneous:

- (i) The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.

- (ii) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- (iii) The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- (iv) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- (v) The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- (vi) The criteria pollutant levels namely; PM_{2.5}, PM₁₀, SO₂, NO_x (ambient levels) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
- (vii) The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- (viii) The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- (ix) The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
- (x) No further expansion or modifications in the Industrial Area shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
- (xi) Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- (xii) The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- (xiii) The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- (xiv) The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- (xv) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other

orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

(xvi) Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

28. This issues with the approval of the Competent Authority.
